

*Blood Collection & X-ray booking Instructions:*

Online booking for blood collection is available for most sites across the province at: <https://booking.nshealth.ca>

You must have a valid email address to book online.

If you don't see your site there check the website for booking instructions (phone number): <http://www.nshealth.ca/blood-collection>

You should book your appointment 2-3 weeks in advance of when you need to go. You are unable to book more than 3 weeks in advance.

If you need an appointment more urgently you will have to call the booking number listed online and explain your care provider has requested you have blood work completed more urgently. If there are issues with this please contact your care provider's office.

Online booking for x-rays is available at some sites with more to be added. The instructions are the same as above.
